OBJECTIVE

Job Application

As a motivated and knowledge-driven computer science undergraduate, I am passionate about leveraging technology and data to address real-world challenges. With a focus on applied statistics and data analysis, I excel at transforming complex information into actionable insights that inform effective solutions. My active involvement in academic and technology-related initiatives demonstrates my commitment to continuous learning, collaboration, and problem-solving. I am eager to contribute my skills, creativity, and dedication to a forward-thinking organization, where I can grow professionally while driving innovative projects that deliver meaningful impact.

APPLIED DATA SCIENCE COURSES

Exploratory Data Analysis (EDA) in Python

Gained hands-on experience in analyzing, visualizing, and interpreting complex datasets using Python, extracting actionable insights to inform data-driven decisions.

Data Manipulation with Pandas

Developed expertise in cleaning, transforming, and structuring large datasets for analysis, enhancing efficiency and accuracy in preparing data for statistical modeling and reporting.

SKILLS

- ★ Adaptable & Strong Work Ethic
- ★ Data Manipulation & Visualization
- ★ Strong Analytical & Problem-solving Skills
- ★ Python & Data Analysis (pandas, NumPy, Matplotlib)
